**EEPC India E-Catalogue for Medical Device Sector**

The Government of India is making an all-out effort to increase the supply and availability of critical health-care technologies and components to the health-care facilities domestically and internationally as the world is facing a crisis in health-care supplies due to the COVID-19 pandemic.

EEPC India, a nodal body under the Ministry of Commerce & Industry, Government of India has identified quality suppliers in the sector and an E-Catalogue is available online at <http://engineering-brands.com/> to provide one stop reliable solution for sourcing requirements from India.

Interested importers, buyers and agencies, buyers may utilize the EEPC India E-Catalogue as per their requirements.
